SCHOOL OF MEDICINE

FACULTY

- P. L. CAMPBELL, B. A., LL. D., President of the University.
- HENRY E. JONES, M. D., Emeritus Professor of Clinical Gynecology.
- GEORGE MILTON WELLS, M. D., Emeritus Professor of Pediatrics.
- ANDREW JACKSON GIESY, M. D., Emeritus Professor of Clinical Gynecology.
- SIMEON EDWARD JOSEPHI, M. D., Professor of Nervous and Mental Diseases. Head of Department of Mental and Nervous Diseases and Medical Jurisprudence.
- OTTO SALY BINSWANGER, Ph. D., M. D., Associate Professor of Clinical Medicine.
- KENNETH A. J. MACKENZIE, M. D., C. M., L. R. C. P. and L. R. C. S. Edin., Dean, Professor of Operative and Clinical Surgery. Head of Department of Surgery.
- RICHARD NUNN, B. A., B. Ch., M. D., Professor and Head of Department of Diseases of Eye, Ear, Nose and Throat.
- JAMES FRANCIS BELL, M. D., L. R. C. P. London, Professor of Theory and Practice of Medicine, Head of Department of Medicine.
- GEORGE FLANDERS WILSON, M. D., Professor of Principles and Practice of Surgery.
- ERNEST FANNING TUCKER, B. A., M. D., Professor of Gynecology, Head of Department of Gynecology.
- EDMUNDE JOHN LABBE, M. D., Professor of Pediatrics.
- GEORGE BURNSIDE STORY, M. D., Professor of Obstetrics, Head of Department of Obstetrics.
- ALBERT EDWARD MACKAY, M. D., Professor of Genito-Urinary Diseases.
- JAMES CULLEN ZAN, M. D., Associate Professor of Clinical Surgery.
- ROBERT CLARKE YENNEY, M. D., Professor of Clinical Medicine.
- JOHN DICE MACLAREN, M. S., M. D., Professor of Physiology, Head of Department of Physiology.
- RICHARD B. DILLEHUNT, M. D., Professor of Anatomy, Assistant Dean.

ROBERT LOUIS BENSON, A. M., M. D., Professor of Pathology, Head of Department of Pathology and Bacteriology.

WILLEY HIGBY NORTON, A. B., M. D., Associate Professor of Bacteriology.

HOWARD D. HASKINS, A. B., M. D., Professor of Biochemistry, Head of Department of Biochemistry.

HAROLD B. MYERS, A. B., M. D., Professor of Materia Medica, Pharmacology, and Toxicology, Head of Department of Pharmacology.

WILLIAM F. ALLEN, A. M., Ph. D., Professor of Anatomy, Head of Department of Anatomy.

FRANK R. MENNE, B. S., M. D., Associate Professor of Pathology.

GEORGE E. BURGET, S. B., Ph. D., Professor of Physiology.

ASSISTANT PROFESSORS

ALVIN WALTER BAIRD, A. B., M. D., Assistant Professor of Surgery.

J. ALLEN GILBERT, Ph. D., M. D., Assistant Professor of Medicine.

WILLIAM HOUSE, M. D., Assistant Professor of Nervous and Mental diseases.

J. C. ELLIOT KING, A. B., M. D., Assistant Professor of Dermatology and Syphilology.

CARENCE J. MCCUSKER, B. S., M. D., Assistant Professor of Obstetrics.

T. HOMER COFFEN, A. B., M. D., Assistant Professor of Clinical Medicine.

LAURENCE SELLING, A. B., M. D., Assistant Professor of Clinical Medicine.

WILLIAM S. KNOX, B. S., M. D., Assistant Professor of Clinical Medicine.

OTIS BUCKMINSTER WIGHT, A. B., M. D., Assistant Professor of Gynecology.

GEORGE SHATTUCK WHITESIDE, M. D., Assistant Professor of Genito-Urinary Surgery.

CALVIN S. WHITE, M. D., Assistant Professor of Medicine (Hygiene and Sanitation).

ROBERT H. ELLIS, M. D., Assistant Professor of Obstetrics.

RALPH CHARLES MATSON, M. D., Assistant Professor of Medicine.

In charge of Tuberculosis Division of Out-Patient Department.

RAY W. MATSON, M. D., Assistant Professor of Medicine. In charge of Tuberculosis Division of Out-Patient Department.
J. EARLE ELSE, M. S., M. D., Assistant Professor of Surgery.

ASSOCIATES

GEORGE AINSLIE, M. D., Associate in Ophthalmology.
J. B. BILDERBACK, M. D., Associate in Pediatrics.
JOHN N. COGHLAN, M. D., Associate in Otology.
RALPH A. FENTON, A. B., M. D., Associate in Rhinology and Laryngology.
L. H. HAMILTON, A. B., M. D., Associate in Surgery.
GEORGE F. KOEHLER, M. D., Associate in Medicine.
HARVEY G. PARKER, M. D., Associate in Dermatology.
GEORGE NORMAN PEASE, A. B., M. D., Associate in Surgery.
FRANK M. TAYLOR, A. B., M. D., Associate in Medicine.
RALPH C. WALKER, M. D., Associate in Medicine (Radiology).
FRED ZIEGLER, B. S., M. D., Associate in Surgery.
PAUL ROCKEY, M. D., Associate in Surgery.
J. F. DICKSON, M. D., Associate in Ophthalmology.
W. B. HOLDEN, M. D., Associate in Surgery.
B. L. NORDEN, M. D., Associate in Surgery.
C. R. MCCLURE, M. D., Associate in Surgery (Orthopedic).
A. C. SMITH, M. D., Associate in Surgery.
I. C. BRILL, A. B., M. D., Associate in Medicine.

INSTRUCTORS

HORACE BURNETT FENTON, A. B., M. D., Instructor in Therapeutics.
DONALD H. JESSUP, Phm. G., M. D., Instructor in Surgery.
FREDERICK A. KIEHLE, A. B., M. D., Instructor in Ophthalmology.
JAMES WENDELL ROSENFELD, A. B., M. D., Instructor in Pediatrics.
WILLIAM A. SHEA, M. D., Instructor in Surgery.
RAYMOND E. WATKINS, M. D., Instructor in Anatomy.
SHERMAN E. WRIGHT, A. B., M. D., Instructor in Ophthalmology and Otology.
COURTLAND LINDEN BOOTH, A. B., M. D., Instructor in Medicine.
WILLIAM GEORGE SCOTT, M. D., Instructor in Obstetrics.
MARR BISAILLON, M. D., Instructor in the Out-Patient Tuberculosis Clinic.

HARRIET J. LAWRENCE, M. D., Instructor in the Out-Patient Tuberculosis Clinic.

C. STUART MENZIES, M. D., Instructor in Anatomy.

ALLEN P. NOYES, M. D., Instructor in Pediatrics.

H. W. HOWARD, M. D., Instructor in Genito-Urinary Surgery.

E. F. ZIEGELMAN, M. D., Instructor in Gynecology.

ARTHUR S. ROSENFELD, A. B., M. D., Instructor in Medicine.

CARL T. ROSS, M. D., Instructor in Surgery.

B. N. WADE, M. D., Instructor in Surgery.

EUGENE ROCKEY, M. D., Instructor in Surgery.

G. LEE HYNSON, M. D., Instructor in Surgery.

GERTRUDE FRENCH, B. S., M. D., Instructor in Ophthalmology.

R. F. DAVIS, M. D., Instructor in Ophthalmology.

DAVID N. ROBERG, M. D., Instructor in Tropical Medicine.

ANDREW J. BROWNING, M. D., Instructor in Anaesthesia.

RESEARCH FELLOW

CHARLES U. MOORE, M. S., M. D., Research Fellow in Biochemistry.

COMMITTEES OF THE FACULTY

(The first named is Chairman.)

THE EXECUTIVE BOARD

K. A. J. MACKENZIE

E. F. TUCKER

W. F. ALLEN

H. B. MYERS

R. B. DILLEHUNT

REVISION OF CURRICULUM AND ADVANCED STANDARDS—W. H. Norton, R. B. Dillehunt, J. D. MacLaren, G. B. Story, R. L. Benson and H. D. Haskins.

LEGISLATION—K. A. J. Mackenzie, S. E. Josephi, E. F. Tucker, E. J. Labbe and R. C. Yenney.

RULES—A. E. Mackay, R. B. Dillehunt, J. B. MacLaren, G. B. Story and H. B. Myers.

ADMISSION, PROMOTION AND PREPARATORY SCHOOLS—R. L. Benson, R. B. Dillehunt, H. D. Haskins, R. C. Yenney and H. B. Myers.

GROUNDS, BUILDINGS AND IMPROVEMENTS—W. F. Allen, K. A. J. Mackenzie, R. B. Dillehunt, S. E. Josephi and J. C. Zan.

STUDENT AFFAIRS—H. D. Haskins, J. C. Zan, R. L. Benson and G. B. Story.

SCHOLARSHIPS AND ENDOWMENTS—E. F. Tucker, E. J. Labbe, K. A. J. Mackenzie and George F. Wilson.

FACULTY AND STUDENTS' LIBRARY—J. D. MacLaren, R. L. Benson, G. B. Story and H. B. Myers.

ETHEL MONTGOMERY, Secretary-Registrar.

SCHOOL OF MEDICINE

STUDENTS 1916-1917

GRADUATES WITH THE DEGREE OF DOCTOR OF MEDICINE

| | | |
|--------------------------------|------------------|----------------------|
| James Francis Bell, Jr., B. L. | Portland, Ore., | 821 Irving St. |
| Ernest A. Daus | Weiser, Ida. | Good Samaritan Hosp. |
| Isaaq A. Dellar | Portland, Ore. | 874 Northrup St. |
| Lucille Hart, B. A. | Albany, Ore. | 745 Hoyt St. |
| Roy W. Hendershott, Ph. G. | Tiffin, Ohio | 267 N. 21st St. |
| Ernest D. Lamb, A. B. | Eugene, Ore. | Good Samaritan Hosp. |
| Murray M. Levy, Ph. G. | Portland, Ore. | Elmwood Apts. |
| Ralph L. Lieser | Vancouver, Wash. | St. Vincent's Hosp. |
| James A. Loundagin | Portland, Ore. | 709 Irving St. |
| Russell Flint Maddren | Brooklyn, N. Y. | 720 Johnston St. |
| Delbert H. Nickson, B. S. | Seattle, Wash. | 228 N. 20th St. |
| Herbert van H. Thatcher | Portland, Ore. | 829 Quimby St. |

THIRD YEAR

| | | |
|-----------------------------|--------------------|--------------------|
| Frank J. Clancy | Seattle, Wash. | 709 Irving St. |
| John J. Darby | Pomeroy, Wash. | 149 N. 23rd St. |
| John B. Farrior, A. B. | Portland, Ore. | Belle Court |
| George E. Fortmiller, A. B. | Albany, Ore. | 291 W. Park St. |
| Ira E. Gaston | Astoria, Ore. | 182 N. 22nd St. |
| James C. Ghormley | Portland, Ore. | 563 Rodney Ave. |
| Elward J. Jasper | Forest Grove, Ore. | 748 Lovejoy St. |
| Jesse Dale Jewell | Portland, Ore. | 899 E. Everett St. |
| Russell Kelzer | Portland, Ore. | 761 Lovejoy St. |
| Richard P. Landis, B. S. | Portland, Ore. | 714 Glisan St. |
| Geo. W. Montgomery | Falls City, Ore. | 186 N. 22nd St. |
| Kathryn Rueter | Forest Grove, Ore. | 741 Hoyt St. |
| Clarence W. Shannon | Seattle, Wash. | 175 24th St. N. |
| Robert B. Smalley | Seattle, Wash. | 709 Irving St. |
| Dennis S. Swart | Woodland, Wash. | 589 Kearney St. |
| Eugene P. Steinmetz, B. S. | Portland, Ore. | 1520 E. Taylor St. |
| Herbert L. Strong | Kelso, Wash. | 586 E. 15th St. N. |
| Douglas H. Warner | Portland, Ore. | 724 Hancock St. |
| Randall F. White | Portland, Ore. | 369 31st St. N. |
| Ralph G. Young | Portland, Ore. | 214 E. 45th St. |

SECOND YEAR

| | | |
|---------------------------|-------------------|--------------------------|
| Robert V. Baker | Portland, Ore. | 464 E. 24th St. S. |
| John W. Barcroft | Newberg, Ore. | |
| Leland V. Belknap | Prineville, Ore. | 862 Marshall St. |
| Linus H. Bittner, B. A. | Portland, Ore. | 604 E. 18th St. |
| Jesse L. Bloch | Portland, Ore. | 695 Lovejoy St. |
| Vernon J. Brown, B. S. | Portland, Ore. | 685 Irving St. |
| Nicholas S. Checkos | Portland, Ore. | 226 13th St. |
| Clyde W. Collings | Vancouver, Wash. | 175 N. 24th St. |
| Dean Piper Crowell, B. A. | Albany, Ore. | Hill Military Academy |
| Chas. David Donahue | Portland, Ore. | Jaeger Apartments |
| John Harold Flitzgibbon | Portland, Ore. | 1101 Rodney Ave. |
| Herbert H. Foksett | McMinnville, Ore. | Medical School |
| Lloyd B. Hainline | Portland, Ore. | 1290 E. Morrison St. |
| Blair Holcomb | Portland, Ore. | 216 Graham Ave. |

UNIVERSITY OF OREGON

HISTORICAL SKETCH

The University of Oregon was established by act of the State Legislature October 19, 1872, and located at Eugene. Deady Hall, the first University building, was erected by the citizens of Lane County, and presented to the Board of Regents in July, 1876. In September of the same year, the University opened its doors for the reception of students. The first class was graduated in June, 1878.

The equipment of the University was at first very small, and the courses of instruction were limited practically to literary lines. The University grew rapidly, and the demand for a broader curriculum was met by the addition of engineering, scientific and technical courses. The Law School was established in 1884, and the Medical School in 1887. With the growth and development of the State, the University has increased in numbers and financial resources. Buildings have been erected, new departments added, and large equipment installed.

A noteworthy enlargement of the functions of the University is the Correspondence and Extension departments, which bring the resources of the University within the reach of those who are unable to attend the regularly organized classes on the campus, and further provide lectures for such communities as desire to avail themselves of the opportunity.

The aim of the University of Oregon in its relation to the educational system of the State is two-fold: First, to supplement the work of the high schools with a four years' university course. Second, to encourage graduate study.

While the University furnishes instruction in the various branches requisite for a liberal education, and in the technical branches of architecture, commerce, education, journalism, law, medicine and music, it also aims to encourage research work in its departments and to offer to those who have completed college courses at the University or elsewhere an opportunity to do graduate work along general or special lines.

In addition to its work as a part of the public school system, the University attempts to aid in the State's development by

gathering exact and detailed information concerning its industrial resources, and by investigating, through its several departments, such civic and industrial problems as are of special interest to the people of the State.

Thoroughly in sympathy with the modern tendency toward the socialization of public education, it is the policy of the University to extend its activities to the service of the State in every way in which it may be of value.

The University of Oregon is located at Eugene, in Lane County, at the head of the Willamette Valley. Eugene is 123 miles south of Portland, with which it is conveniently connected by the Southern Pacific, Oregon Electric, and the Portland, Eugene and Eastern Railroads. Eugene is a prosperous community of 12,000 inhabitants. Its well-paved streets and street railway systems, its many fine public buildings and its attractive residence districts combine to produce an effect of municipal well-being. Eugene's effective public school system is given higher excellence by the completion of a new high school building, representing the most approved type of structure of its class. The municipal water supply—always a vital consideration—is exceptionally good. Copious, cold and pure, the water is subjected to twenty tests each week in the laboratories of the University—a final safeguard against dangerous bacterial contamination. The cultural and moral tone of Eugene is high, and the community is unusually free from corrupting influences.

The University grounds are situated about one mile southeast of the center of the city. The campus contains 80 acres. The buildings are situated on a natural rise overlooking the city. Native and exotic trees and shrubs are interspersed with rose hedges and flower gardens. The whole is a beautifully kept lawn, with attractive walks and drives, and is one of the beauty spots of the State. The Willamette River flows along its northern border and the snow-covered Three Sisters and peaks of the Coast Range are in full view.

MEDICAL SCHOOL

HISTORY

The Medical School of the University of Oregon was established at Portland in 1887 by a charter from the Regents of the University. The first building was a small frame structure located at what is now the corner of Marshall and Twenty-second Streets, on the grounds of the Good Samaritan Hospital. It consisted of a single lecture room on the ground floor, and an anatomical laboratory, on the upper floor. In 1890 the present lot was purchased, and the building was transferred to it and remodeled. The present building was erected in 1892. It is a three-story structure and contains well-equipped laboratories, a convenient dissecting room, two large lecture rooms, and the medical school library.

The merger of the medical department of the Willamette University, the first foundation of the kind in the State of Oregon, with the Medical School of the University of Oregon, was effected by mutual and friendly arrangements on the first day of September, 1913. Under the terms of the merger the Medical Department of the Willamette University retired permanently from the field of medical education, and transferred its entire enrollment, numbering forty, to the State School in the city of Portland, and arrangements were effected so that the students of the Willamette University were graduated during the course of the following three years, and received degrees indicative of the merger of the two schools, and the alumni of both schools are consolidated under the Medical School of the University of Oregon, which becomes at once the sole school of medicine in the Pacific Northwest, thus serving the largest territory in the United States served by one medical school.

In the spring of 1914 a gift of 20 acres of land was made to the Medical School of the University of Oregon by the Executive Committee of the Oregon-Washington Railroad and Navigation Company. The campus is situated on Marquam Hill, one of the most attractive scenic points in the city of Portland, and will be approached by easy grades over the Terwilliger Boulevard. Under the terms of the gift it will be possible to

erect hospitals upon the campus which will enable the faculty of the school to give the most practical instruction upon all branches of medicine.

By an act of the Legislature of the State in 1915, fifty thousand dollars was appropriated for the construction of the first unit of a medical group, contingent upon a popular subscription of twenty-five thousand dollars. This provision was met, and the Legislature of 1917 augmented the fund by providing forty thousand dollars more. Thus there is a building fund of one hundred fifteen thousand dollars, and construction will be commenced immediately on a building affording the most modern laboratory facilities, both in point of architecture and equipment.

FACILITIES

BUILDINGS

The Medical School building is a three-story structure, heated by hot water and lighted by gas and electricity. The laboratory work is conducted here. Two large lecture halls supplied with charts, blackboards, and a projection lantern, admirably meet the need for lectures, quizzes and demonstrations.

LABORATORIES

In 1910, a complete reorganization of the various laboratory departments was instituted, and the laboratories were newly equipped, and the facilities were much improved. The laboratories of chemistry, physiology, histology, bacteriology, pathology, pharmacology and anatomy possess all the modern apparatus for practical instruction in those subjects.

CLINICAL ADVANTAGES

The Medical School has exceptional clinical advantages because of its intimate relation to large general hospitals, in all of which are conducted parts of the work of the clinical years.

Good Samaritan Hospital is located just opposite the Medical School. It accommodates 230 patients and has recently built a new operating room with a convenient amphitheatre.

St. Vincent's Hospital is within five minutes' walk of the Medical School. It is modern in every respect and contains 375 beds and six excellent operating rooms, one of which has a large amphitheatre, specially constructed to afford facilities for teaching surgery and medicine in this Medical School.

Multnomah County Hospital is a charitable institution readily accessible by street car, and affords much material for practical clinical work. This institution will soon be enlarged to comply more thoroughly with the needs of Multnomah County.

Members of the faculty conduct clinics daily in these hospitals, and the student is brought into actual contact with methods of diagnosis and treatment.

Portland's geographical position is such that its hospitals receive many patients from a large surrounding territory, resulting in a great diversity of clinical material.

DISPENSARIES

The Portland Free Dispensary is conducted by the Medical School in co-operation with the People's Institute and the Visiting Nurse Association. It is located at Fourth and Jefferson streets, in excellent quarters providing adequate rooms for all departments of clinical teaching, and complete laboratory equipment. Over three thousand patients were cared for in 1916, assuring a good daily attendance. Small groups of fourth year students are assigned to daily dispensary service under immediate supervision.

The Jewish Neighborhood House, at Second and Hooker streets, affords an excellent dispensary service in Pediatrics and Oto-laryngology.

LIBRARY

The Medical School library was established by the gift of the libraries of the late R. B. Wilson and Rodney Glisan, two distinguished pioneer physicians of this state. Numerous volumes have been added, making a total of nearly 4,000. About 400 recent volumes have been purchased and the periodicals number 46.

REQUIREMENTS FOR ADMISSION

The minimum requirements for admission comprise (a) the successful completion of a four-year high school or academic course, or the equivalent thereof; and in addition, (b) the successful completion of two years of college work leading to a Bachelor degree in a University or College of Liberal Arts accredited by the University of Oregon. This work must have embraced at least eight semester hours in each of the subjects biology, general chemistry, physics, and a modern foreign language, and six semester hours of organic chemistry; (c) a certificate of good moral character signed by two reputable physicians.

A. HIGH SCHOOL WORK REQUIRED

The high school work imperatively demanded of each matriculant comprises evidence of the completion of a four-year course in an accredited high school or the equivalent thereof, as demanded for unconditional admission to the University College of Literature, Science and the Arts at Eugene.

Fifteen units in all are required, nine of which are in required subjects, and the remaining six of which may be selected from any subjects for which a standard high school gives credit.

By a unit of work, is meant a subject continuing through one year of at least 36 weeks, five times a week, with each period not less than 40 minutes in length.

REQUIRED HIGH SCHOOL SUBJECTS

The required subjects, with the number of units in each, are as follows:

| | | | |
|-------------------------|---------|---------------|---------|
| English | 3 units | History | 1 unit |
| Algebra | 1 unit | Science | 1 unit |
| Plane Geometry | 1 unit | | — |
| One Foreign Language .. | 2 units | Total | 9 units |

ELECTIVE HIGH SCHOOL SUBJECTS

The other six of the fifteen units may be selected from any of the subjects for which standard high schools give credit toward graduation and may include additional work in the required subjects.

B. COLLEGE WORK REQUIRED

Two years of work in a College of Liberal Arts or a University fully accredited by the University of Oregon must have been completed, comprising a total of at least sixty semester hours of college credit leading to a Bachelor's degree. This work must include eight semester hours in each of the subjects, General Chemistry, Biology, Physics, and a modern foreign language; and six semester hours in Organic Chemistry. Each of these subjects must have included a certain amount of laboratory work as shown in the following table, and the balance of the sixty hours may be in any of the college subjects for which credit is given toward a Bachelor's degree.

| SUBJECT | Lectures or Recitations per week | Laboratory Periods per week | Total Semester Hours |
|-------------------------|--|-----------------------------------|----------------------------|
| Physics | 2 or 3 | 2 or 1 | 8 |
| General Chemistry | 2 or 3 | 2 or 1 | 8 |
| Organic Chemistry | 2 or 1 | 1 or 2 | 6 |
| Biology | 2 or 3 | 2 or 1 | 8 |
| German or French | 4 | | 8 |
| Electives | | | 22 |
| Totals | 12 or 14 | 7 or 5 | 60 |

N B—Each laboratory period must extend over at least two hours

These credits are accepted from accredited universities and colleges upon credentials from the proper authority, but work done in other medical or professional schools is not accepted as a substitute for the required college subjects

No students are admitted with any condition.

ADMISSION BY EXAMINATION

Students who have completed the required work in colleges or universities not accredited by the University of Oregon must pass examination in the required branches. This examination is conducted by the Faculty of the University College of Literature, Science and the Arts, and upon completion of the exam-

ination the student must submit credentials from the University certifying that such credit has been approved.

ADMISSION TO ADVANCED STANDING

No student will be admitted to advanced standing who has not complied fully with the requirements for admission to this Medical School. Credits will be given to students from other recognized medical institutions, the requirements for admission and standard of work of which are equivalent to those of this Medical School upon presentation of credentials from proper authority. Such student must submit a certificate of honorable discharge from his previous college, as well as evidence (such as laboratory note-books) of the exact amount of work he has successfully completed there, both of which are subject to the approval of the heads of the department involved and of the Dean.

Inasmuch as four years of residence in a recognized medical school is required for the degree of Doctor of Medicine, no time credit is given for work done at Eugene, or in other non-medical colleges, but subject credit may be given for satisfactory work if approved by the Dean, and the head of the Medical School department concerned

COMBINED DEGREE COURSE

Those students who have successfully completed three years of work in the University, leading to the degree of Bachelor of Arts, and embracing not less than ninety semester hours of credit, may, upon the successful completion of the first year in the Medical School, embracing thirty-four semester hours, receive the degree of Bachelor of Arts, when approved by the College of Literature, Science and the Arts.

PRE-MEDICAL COURSES

Special pre-medical courses are offered by many universities, and they are, as a rule, particularly adapted to fulfill the requirements of all Class A medical schools. An excellent course is provided by the College of Literature, Science and the Arts of the University of Oregon. In addition to the required sub-

jects, the student is strongly advised to elect courses in English, Latin, Psychology and Drawing.

SPECIAL STUDENTS

Students who are not candidates for the degree of Doctor of Medicine may register in courses in the fundamental laboratory branches for which they are prepared, as special students; and graduates in medicine may register as special students in any course. But no matriculants will be accepted as special students in clinical subjects, other than graduates in medicine; and no graduates in medicine will be accepted as candidates for the degree of Doctor of Medicine.

THE CURRICULUM

The curriculum consists of four annual sessions of thirty-two weeks (two semesters) each. The first two years are devoted chiefly to the fundamental branches; anatomy, both gross and minute; physiology, biochemistry, neurology, embryology, pathology, pharmacology, bacteriology, materia medica, and toxicology.

The last two years embrace the clinical branches: Medicine, surgery, obstetrics, gynecology, therapeutics, laboratory diagnosis, clinical pathology, nervous and mental diseases, genito-urinary diseases, and diseases of the eye, ear, nose and throat.

The student approaches the practical subjects of the third year, after the completion of those subjects preparatory to practical medicine. The principles of medicine, surgery and obstetrics are taken up in recitations, in sections at the dispensary, and in the clinics. Clinics, lectures, recitations and demonstrations are conducted in medicine, surgery, nervous diseases, gynecology, eye, ear, nose and throat, genito-urinary diseases, dermatology, and pediatrics.

Classes are sufficiently small to allow each student the advantages of much personal instruction.

REQUIREMENTS FOR GRADUATION

The following are the requirements of the candidate for the degree of Doctor of Medicine:

He must have finished four full medical courses of at least eight months each, no two of which shall have been taken within the same twelve months, and the last of which must have been taken in this Medical School.

He must have secured satisfactory standing in all examinations and he must be present at commencement exercises and receive his diploma in person unless excused for good reason by the Faculty.

GENERAL INFORMATION

ROUTINE OF ENTRANCE

All applications should be addressed to the Dean, Medical School, University of Oregon, Twenty-third and Lovejoy Streets, Portland, Oregon.

Students contemplating matriculation should submit: (a) a complete official transcript of his high school work, and (b) a complete official record of his college or university work, either in person or by mail, as early as possible. Upon receipt of these he will be promptly notified of his acceptance and the credentials will be retained, or of his rejection and they will be immediately returned to the applicant.

MATRICULATION AND REGISTRATION

The new student is required to present, on matriculation day, (a) his admission credits, if not previously presented; (b) his letter of honorable dismissal from previous college; (c) a certificate of good moral character; and (d) must pay the matriculation fee and fees and deposits for the ensuing term.

Any of the above may be done by correspondence or otherwise, but the student must present himself on registration day for approval of credentials and assignment to classes.

Application for admission will not be considered later than October 7, and an extra charge of Five Dollars (\$5.00) will be made for registration later than September 30.

Matriculation and registration will be conducted at the office of the Assistant Dean in the Medical School building on September 28 and 29, from 9 to 12 a. m.

FEES AND DEPOSITS

Matriculation Fee—The matriculation fee is Five Dollars (\$5.00), and is required of every student entering the Medical School, and is payable but once.

Tuition—The tuition for each year is One Hundred and Fifty Dollars (\$150.00), and is payable at the beginning of the school term. Those preferring to pay tuition in two payments may do so by paying Eighty Dollars (\$80.00) at the beginning of the first semester and Seventy-five Dollars (\$75.00) at the beginning of the second. This fee includes all laboratory fees.

Breakage Deposit—A deposit of Ten Dollars (\$10.00) is required of each student at the beginning of each year for general breakage. The cost of damage done by an individual to University property will be deducted from his deposit; and in case the identity of the one responsible cannot be established, a pro rata charge will be made against the entire class of which he is a member. The remainder of this deposit will be returned at the end of each school year.

All fees are payable in advance at the time of matriculation. Fees are not returnable at any time, except by special action of the Faculty.

The Faculty reserves the right to make changes in curriculum, fees or any other matter at any time.

If a special examination is granted, a fee of \$5.00 must be paid the Dean.

SPECIAL STUDENTS

Students who register for special work, and who are not candidates for the degree of Doctor of Medicine, will be charged tuition according to the amount of work undertaken and the nature of the courses.

POST GRADUATES

Graduates of this or other medical schools who are visiting the city for a brief time are cordially invited to attend the various clinics and classes, but those intending to take any definite course must arrange with the Dean.

BOARD AND LODGINGS

Good rooms with all modern conveniences can be obtained in the vicinity of the Medical School at from \$8.00 to \$15.00 a month. Board may be had at from \$12.00 to \$18.00 a month; and room and board together may be obtained at from \$20.00 to \$30.00 a month.

BOOKS AND INSTRUMENTS

The average annual cost of books, instruments and other supplies varies from \$15.00 to \$25.00. The instructors should be consulted before buying textbooks.

LOCKERS AND MICROSCOPES

Coat room and laboratory lockers will be assigned and a deposit of fifty cents must be made when a key for the same is received. Microscopes are rented at a cost of \$5.00 per year; oil immersion lens \$1.00 extra. Students are urged to purchase microscopes the first year.

RESUME OF WORK

The following is an outline of the work. The curriculum is largely prescribed and this resume includes only that work required of every student. The hours have been figured on a basis of sixteen weeks to a semester.

FIRST YEAR

| SUBJECT | Hours per Week | | Hours per Semester | |
|--------------------|-----------------|--------------------|--------------------|--------------------|
| | Labora- tory | Lecture or Quiz | Labora- tory | Lecture or Quiz |
| First Semester— | | | | |
| Anatomy: | | | | |
| Gross | 12 | 2 | 192 | 32 |
| Histology | 8 | 2 | 128 | 32 |
| Biochemistry | 9 | 3 | 144 | 48 |
| Second Semester— | | | | |
| Anatomy— | | | | |
| Gross | 12 | 2 | 192 | 32 |
| Neurology | 5 | 1 | 80 | 16 |
| Embryology | 4 | 2 | 64 | 32 |
| Biochemistry | 9 | 3 | 144 | 48 |
| | | | 944 | 240 |
| Total hours | | | | 1,184 |

SECOND YEAR

| | | | | |
|------------------------------|-----|-----|-----|-------|
| First Semester— | | | | |
| Bacteriology, 12 weeks | 12 | 3 | 144 | 36 |
| Pathology, 4 weeks | 12 | 3 | 48 | 12 |
| Physiology | 15 | 5 | 240 | 80 |
| Second Semester— | | | | |
| Pathology | 12 | 3 | 192 | 48 |
| Pharmacology | 9 | 5 | 144 | 80 |
| Topographic Anatomy | 6 | --- | 96 | --- |
| Physical Diagnosis | --- | 2 | --- | 32 |
| | | | 864 | 288 |
| Total hours | | | | 1,152 |

THIRD YEAR

| SUBJECT | Hours per Week | | Hours per Semester | |
|--------------------------------|----------------------|---------|----------------------|---------|
| | Laboratory or Clinic | Lecture | Laboratory or Clinic | Lecture |
| First Semester— | | | | |
| Pathology | 4 | 2 | 64 | 32 |
| Medicine— | | | | |
| Recitation | --- | 3 | --- | 48 |
| Physical Diagnosis | --- | 2 | --- | 32 |
| Clinic | 1 | --- | 16 | --- |

| Grand total hours | | | | 4,736 |

DEPARTMENTS OF INSTRUCTION

I. ANATOMY

Professor WILLIAM F. ALLEN Professor RICHARD B. DILLEHUNT
Assistant Professor

This department provides instruction in gross and microscopic human anatomy. The former is given in well-lighted and well ventilated dissecting rooms, where ample dissecting material, charts, models, articulated and disarticulated skeletons are available.

The microscopical laboratory is fully equipped with microscopes, models, demonstration preparations, etc., for instruction in histology, embryology and neurology. Students do not make their own microscopical preparations, but are supplied with individual histological, embryological and neurological sets, so that their full time is occupied with a study of the subject at hand.

1. GROSS ANATOMY, INCLUDING OSTEOLOGY

A course in which each student dissects a lateral half of a human body. A definite amount of dissection is planned for each week, which must be satisfactorily demonstrated to the instructor before proceeding to the next.

The work is divided into three courses: 1a—Arm and Thorax; 1b—Leg and Abdomen; 1c—Head and Neck; and each course requires about ten weeks. Occasional lectures, one recitation and eleven hours' laboratory per week, both semesters.

1a—4 credit hours.

1b—4 credit hours.

1c—4 credit hours.

Assistant Professor

2. HISTOLOGY

Includes a comprehensive microscopical study of the tissues and organs of the human body, incorporating in many instances a study of their nerve and vascular supply. Considerable attention is devoted to diagnosing slides of unknown tissues and or-

gans. One lecture, one recitation and eight hours laboratory work per week, first semester; four credit hours. Professor ALLEN.

3. EMBRYOLOGY

This course presupposes a knowledge of maturation, fertilization, segmentation, origin of the germ layers and early development of the general systems in one of the vertebrates. The lectures will deal with the complete development of the human embryo. The laboratory work will begin with a study of the human placenta, and will include a detailed study of the organs derived from the alimentary canal, the formation of the heart, blood vessels, central and peripheral nervous system, muscles and skeleton, as is shown from serial sections of 6, 12 and 25 mm. pig embryos, dissections of 12 mm. embryos and from cleared preparations of human embryos. One lecture, one recitation and four hours laboratory work per week, second semester; three credit hours. Professor ALLEN.

4. NEUROLOGY AND ORGANS OF SPECIAL SENSE

An attempt is made in this course to secure a working knowledge of the nervous system in connection with a study of its microscopic and gross structure, applying the general method first outlined by Professor J. B. Johnston. Dissection of the human brain is accompanied by a study of a Weigert series of the spinal cord and brain stem, and by Marchi, Nissel and silver preparations of certain regions. Beginning with the general cutaneous system the various systems are taken up separately, including in each a study of the peripheral end organs, relays, and reflex arcs, and closing the course with a study of the correlated centers. One lecture, occasional recitations and five hours laboratory per week, second semester; three credit hours. Professor ALLEN.

5. TOPOGRAPHICAL ANATOMY

A course consisting of serial sections of the human body. Students are required to make careful tracings of these sections.

Six hours, second semester; two credit hours. Assistant Professor

6. APPLIED ANATOMY

A course of lectures and demonstrations in surface anatomy, position of viscera, surgically important anatomy, etc. Lectures and quiz two hours a week, second semester; two credit hours. Professor DILLEHUNT.

7. RESEARCH

Research in any branch of anatomy open to qualified students upon approval of any of the instructors. Hours and credits to be arranged.

II. PHYSIOLOGY

JOHN D. MACLAREN, M. S., M. D., Professor of Physiology.

GEORGE E. BURGET, S. B., Ph. D., Professor of Physiology.

WRENN E. GAINES, Technician.

The Department of Physiology offers courses in all phases of this science, but the laboratory work is usually restricted to animal experiments, for which complete modern equipment is provided.

1. HUMAN PHYSIOLOGY

Advanced studies of muscle and nerve, spinal cord and brain, the senses, the human nervous system and mind. Lectures five hours, laboratory fifteen hours a week, first half of first semester, second year. Five credit hours.

2. NUTRITIONAL PHYSIOLOGY

Advanced studies of circulation, respiration, secretion, nutrition, growth and heredity. Lectures five hours, laboratory fifteen hours a week, second half of first semester, second year. Five credit hours.

3. GENERAL PHYSIOLOGY

Conferences on the physical properties of protoplasms, the structural and energetic bases of life, and the adaptive functions of the living parts. Elective. Hours to be arranged.

4. CLINICAL PHYSIOLOGY

Medical Physiology and Surgical Physiology, their application to elementary medicine and operative surgery of animals, illustrating the methods used with human patients. Elective. Hours to be arranged.

5. NEURONAL PHYSIOLOGY

An elective course in verifying researches on the human nervous system, in continuation of Course 1. Hours to be arranged.

6. RESEARCH PHYSIOLOGY

The application of the newer researches to medicine and surgery. Laboratory practice in experimental medicine. Elective for third and fourth year medical students and graduates. Hours to be arranged.

III. PATHOLOGY AND BACTERIOLOGY

Professor BENSON

Associate Professor NORTON

Associate Professor MENNE

The Department of Pathology has the necessary facilities for the study of gross and microscopic pathology. The pathological laboratories of St. Vincent's and Good Samaritan Hospitals are under the direct supervision of this department, and the surgical clinics afford a large amount of fresh pathological material for demonstration. The museum is being constantly augmented from these sources and also from the autopsies which are performed as often as the occasion presents itself. Each student is required to attend a number of autopsies during the year and to write a detailed report of the findings.

A complete set of sections for microscopic study is loaned each student, which he is required to study fully, describe and draw in colors. The student is also taught the technique of

preparing sections of tissue, by the celloidin, paraffin and frozen section methods. The school is fortunate in having an ample equipment for such work.

Besides the instruction at the Medical School, consisting of lectures, demonstrations and laboratory study, demonstrations are given at St. Vincent's Hospital by a member of this department in conjunction with the surgical clinics.

The bacteriology laboratory is thoroughly equipped for the study of micro-organisms, of the principles of immunity, and of modern methods of hygiene and sanitation. It is provided with incubators, autoclaves, dry sterilizers, and all necessary apparatus, and a supply of the more important pathogenic organisms is kept on hand and continually augmented from fresh material. Provision is made for animal inoculations, and the student is given an opportunity to isolate, culture and study the various organisms.

1. BACTERIOLOGY

This is a practical laboratory course in which the students become familiar with the preparation of culture media, the principles of sterilization and disinfection, the methods of cultivating, staining and studying bacteria, the biological examination of air, water and soil, and the important species of pathogenic micro-organisms. The hygienic as well as the pathological relations of bacteriology are considered. Lectures five hours, laboratory ten hours weekly until Christmas holidays, second year. Professor NORTON.

Six credit hours

2 and 3. PATHOLOGICAL HISTOLOGY, GENERAL PATHOLOGY, AND STUDY OF TUMORS

A laboratory course in general pathology, comprising the study of prepared slides supplemented by experiments; the study of fresh and museum specimens, lectures and recitations. Lectures five hours, laboratory ten hours weekly from Christmas holidays to end of second semester, second year.

Course 2—Jan. 2 to Feb. 5. Two credit hours.

Course 3—Second semester. Eight credit hours.

4. SPECIAL PATHOLOGICAL ANATOMY AND HISTOLOGY

This course treats the pathological processes from the standpoint of systems of organs, and includes a consideration of the morbid anatomy, pathological histology, and clinical features of each group. Lectures 2 hours, laboratory 4 hours weekly, 1st semester, 3d year. Associate Prof. MENNE. Three credit hours.

5. SURGICAL PATHOLOGY

This course, consisting of demonstrations of gross specimens, is given in the pathological laboratory of St. Vincent's Hospital. Associate Prof. MENNE.

6. SERUM DIAGNOSIS

For seniors. Elective. Hours to be arranged. Professor BENSON.

7. RESEARCH IN PATHOLOGY AND BACTERIOLOGY.

Open to specially qualified students. Hours to be arranged. Elective.

8. AUTOPSY COURSE

Demonstration of fresh material from recent autopsies. Where possible the clinician in attendance on the case will be asked to present the clinical features of the case. One period weekly during year.

9. PRACTICAL HYGIENE

A laboratory course in the chemical and bacteriological analysis of milk, water, sewage and air, with instruction in the use of special apparatus will be offered to students who have completed their work in bacteriology. January 1 to April 1 for fourth year students. Elective. Professor NORTON.

IV. BIOCHEMISTRY

Professor HASKINS

The aim of the course is to give as complete a survey of biochemistry as possible.

The laboratory work includes extended study of proteins, lipins, carbohydrates, enzymes, digestive juices, bile, blood, milk and urine. Many pathological urines are examined. Each student performs a metabolism experiment. Especial emphasis is laid on quantitative chemical methods, including a complete analysis of water, air, milk and urine. Lectures, 3 hours, laboratory 9 hours a week, both semesters. Course 1a, 1st semester, 6 credit hours. Course 1b, 2d semester, 6 credit hours.

V. PHARMACOLOGY, TOXICOLOGY AND PRACTICAL THERAPEUTICS

Professor MYERS

Dr. FENTON

Instruction in this department aims to give a practical working knowledge of the characters of drugs and their application in the treatment of disease. Lectures, recitations, laboratory work, conferences and frequent written examinations constitute the course of instruction. The student laboratory is fully equipped with apparatus, drugs and a museum of *materia medica*. Current journals and books are on file in the laboratory for student reference. A supply of animals is maintained for the study of drug action upon living tissue.

1. MATERIA MEDICA

Instruction is given by means of lectures and recitations concerning the origin, character and preparation of drugs; metrolgy; prescription writing and incompatibilities. Laboratory work in the actual preparation by each student of all physical forms of drugs according to the United States Pharmacopoeia; the isolation and study of active principles; the appearance, physical and chemical characters and dosage of the more important drugs and chemicals. Lectures 4 hours, laboratory 3 hours a week; second semester. Five credit hours.

2. PHARMACOLOGY

Lectures, conferences and laboratory work upon the actions of drugs. The class is divided into small groups, each of which performs experiments illustrating the influence exerted by

various drugs upon the muscular, nervous, circulatory, respiratory, digestive and excretory organs. The indications for the use of each drug, based on its action and the form, dosage and method of prescribing are considered. Lecture 4 hours, laboratory 3 hours; second semester. Five credit hours.

3. PHARMACOLOGY

A continuation of Course 2, completing the subject. Lecture two hours for ten weeks, first semester. One and one-half credit hours.

4. TOXICOLOGY

The symptoms and treatment of poisoning; the isolation and detection of the more common poisons. Intended only to give an intelligent understanding of the processes involved. Lecture 2 hours, laboratory 2 hours, six weeks first semester. One and one-half credit hours.

5. THERAPEUTICS

A lecture and recitation course in the practical application of medicinal drugs to pathological conditions, including a review of prescription writing. DR. FENTON. 1 credit hour.

Sections of the class are given practical work at the Free Dispensary in the study of drug action in disease and prescription writing. DR. MYERS.

VI. MEDICINE

Professor BELL Professor YENNEY Assistant Professor GILBERT
 Associate Professor BINSWANCER
 Assistant Professor WHITE Assistant Professor RAY MATSON
 Assistant Professor RALPH MATSON
 Dr. KOEHLER, Instructor in Medicine
 Assistant Professor SELLING Assistant Professor KNOX
 Dr. ROSENFELD, Instructor in Medicine
 Dr. BOOTH, Instructor in Medicine
 Assistant Professor COFFEN Dr. WALKER, Instructor in Medicine
 Dr. TAYLOR, Instructor in Medicine
 Dr. ROBERG, Instructor in Medicine
 Professor HASKINS Dr. BRILL

INTERNAL MEDICINE

Medicine is taught at first didactically by recitation from assignments, by practical work in physical diagnosis, and clinical laboratory work. Later the student is brought more closely in touch with the patient by clinics in hospitals and work in the dispensary.

1. MEDICINE RECITATION

A course of quizzes in the principles of medicine from definite text assignments. 3 hours a week, both semesters, 3d year. Dr. KNOX. Course 1a, 1st semester, 3 credit hours. Course 1b, 2d semester, 3 credit hours.

2. PHYSICAL DIAGNOSIS

A lecture and practical course in methods of physical examination with demonstrations and practice in percussion, auscultation, etc. 2 hours a week, 2d semester, 2d year. Dr. BOOTH.

Two credit hours.

3. PHYSICAL DIAGNOSIS

A continuation of Course 3 with work in pathological conditions. 2 hours a week, 1st semester, 3d year. Dr. BOOTH.

Two credit hours.

4. TUBERCULOSIS CLINIC

A course in the diagnosis and treatment of tuberculosis.

The clinic provides abundant material for the study of tuberculosis and its modern methods of treatment, including tuberculosis therapy. Dr. RALPH MATSON, Dr. RAY MATSON.

5. LABORATORY DIAGNOSIS

A practical course in the laboratory in which the student is taught the chemical, microscopic, and bacteriologic examination of blood, urine, sputum, gastric contents, feces, secretions and exudates. The course includes many of the recent methods of quantitative analysis of blood and urine, e. g., urea, sugar, hydrogen ion concentration and alkali reserve of blood; urea,

ammonia, creatinin, acetone, phenolsulphonephthalein elimination, and hydrogen ion concentration of urine. The technique of the Wasserman and Lange tests is demonstrated. Two lectures and four laboratory hours per week, 1st semester, 3d year. Professor HASKINS, Dr. BRILL. Three credit hours.

6. MEDICINE CLINIC

A clinic devoted chiefly to instruction in the essentials of theoretical and practical medicine. 1 hour a week, entire 4th year. 1-2, Wed., St. Vincent's Hospital. Professor BELL. Two credit hours.

7. MEDICINE CLINIC

A clinic in internal medicine confined to the Senior year. 2 hours a week, entire 4th year. St. Vincent's Hospital. Assistant Professor GILBERT. Two credit hours.

8. MEDICINE CLINIC

A clinic paying especial attention to pathology and diagnosis. 4 hours a week, entire 4th year. Multnomah Hospital. Professor YENNEY. Four credit hours.

9. MEDICINE LECTURE

A clinic or lecture in medicine with special stress on diseases of the stomach and intestines. 1 hour a week, 1st semester, 4th year, elective. Dr. KOEHLER. One credit hour.

10. LECTURE AND CONFERENCE IN MEDICINE

A lecture course with frequent quizzes on the more important and more prevalent diseases. 3 hours a week, 2d semester, 4th year. Professor BELL. Three credit hours.

II. HYGIENE AND SANITATION

A course treating of practical hygiene with instruction in municipal sanitation, food control and garbage destruction, and the relation of these public health. 2 hours a week, 2d semester, 3d year. Assistant Professor WHITE. Two credit hours.

12. DIETETICS

A course involving the values of foods and the methods of variance of foods in certain diseases. 1 hour a week 1st semester, 3d year. Dr. TAYLOR. One credit hour.

13. RADIOLOGY AND ACTINOTHERAPY

A course in electricity as applied to medicine and surgery, including the use of the X-ray in diagnosis and therapy. 1 hour a week, 1st semester, 4th year. Dr. WALKER. One credit hour.

14. CLINIC

Clinic for 3d year students at St. Vincent's Hospital. 1 hour a week, both semesters. Dr. BINSWANGER. One credit hour.

15. DISPENSARY

A course in the dispensary in which small groups are assigned to the medical side, and are given practice in writing histories, physical diagnosis, laboratory work, clinical observation and treatment. 8 hours a week, both semesters, 3d year. Dr. BOOTH, Dr. KOEHLER, Dr. MYERS, Dr. ROSENFELD.

16. CLINICAL CLERKSHIP SERVICE

A medicine service has been established in connection with the St. Vincent's Hospital for the fourth year students. In this service the attempt is made to bring the student into the closest possible relation to the patient. Each patient entering this department of the hospital is assigned to the care of two students. These act as clinical clerks, taking the history, making the physical examination and doing all the clinical laboratory work required. It is the object of this service that each case shall be worked up as thoroughly as possible, in order to teach the student the necessity of careful and complete routine examinations. A well equipped clinical laboratory is at the service of the students. Assistant Professor SELLING, Assistant Professor KNOX Assistant Professor COFFEN, Dr. BRILL. Two credit hours.

17. TROPICAL MEDICINE

This is a lecture and laboratory course upon the important tropical diseases. Dr. ROBERG.

VII. NERVOUS AND MENTAL DISEASES AND MEDICAL JURISPRUDENCE

Professor JOSEPHI

Assistant Professor HOUSE

The work of this department is confined to the third and fourth years, and is conducted didactically and clinically as well as by the work in the dispensary.

1. NERVOUS DISEASES

A lecture and conference course dealing with the pathology, symptomatology, diagnosis and treatment of the common nervous diseases. 2 hours a week, 2d semester, 3d year. Professor JOSEPHI. Two credit hours.

2. DISEASES OF THE MIND, AND NERVOUS SYSTEM

An advanced course in the pathological conditions of the nervous system and in insanity. 2 hours a week, 1st semester, 4th year. Professor JOSEPHI. Two credit hours.

3. CLINIC

A clinic in nervous and mental diseases. 1 hour a week, entire 4th year. Multnomah Hospital. Assistant Professor HOUSE. One-half credit hour.

3a. CLINIC

A clinic in nervous diseases at the Portland Free Dispensary, 2 hours a week, 1st semester, 4th year. Professor JOSEPHI.

3b. CLINIC

A clinic at Morningside Hospital for Insane (by courtesy of Dr. H. W. Coe.). 2 hours a week during March, 4th year. Professor JOSEPHI. One-fourth credit hour.

4. MEDICAL JURISPRUDENCE AND MEDICAL ETHICS

A course of lectures and recitations in forensic medicine and medical ethics and economics. 1 hour a week, 2d semester, 4th year. Assistant Professor HOUSE. One credit hour.

VIII. PEDIATRICS

Professor LABBE

Dr. ROSENFELD

Dr. BILDERBACK

Dr. NOYES

Instruction in this department is conducted by means of lectures, conferences and clinical work at the dispensary.

1. ANATOMY, PHYSIOLOGY, AND HYGIENE OF INFANCY AND CHILDHOOD

Lectures and quizzes are conducted in the anatomy, physiology, and hygiene of infancy and childhood, and principles of infant feeding, and in the disorders of nutrition in infancy. 3 hours a week, 2d semester, 3d year. Dr. BILDERBACK.

Three credit hours.

2. DISEASES OF INFANCY AND CHILDHOOD

A conference and lecture course in diseases of infancy and childhood. 3 hours a week, 1st semester, 4th year. Professor LABBE.

Three credit hours.

3. DISPENSARY WORK

In this course small groups are assigned to the Pediatrics side and are given practice in taking histories, physical diagnosis, laboratory work, clinical observation and treatment. 4 hours a week, both semesters, 3d year. Professor LABBE, Dr. BILDERBACK. Dr. ROSENFELD.

IX. DERMATOLOGY AND SYPHILOLOGY

Assistant Professor KING

Dr. PARKER

Lectures, recitations, demonstrations and clinical work will be conducted in dermatology and syphilis in the clinical years.

1. INTRODUCTORY DERMATOLOGY

A lecture and recitation course in the fundamentals of dermatology and in the more prevalent diseases of the skin. Illustrative cases will be exhibited from time to time. 2 hours a week, 2nd semester, 3d year. Assistant Professor KING.

Two credit hours.

2. DERMATOLOGY AND SYPHILIS

A continuation of Course 1. 2 hours a week, 1st semester, 4th year. Assistant Professor KING. Two credit hours.

3. DISPENSARY

A course at the Portland Free Dispensary in which small groups are assigned to the dermatological side and are given practice in writing histories, diagnosis and treatment. 4 hours a week, both semesters, 3d year. Dr. PARKER.

X. SURGERY

| | | | |
|-------------------------|--------------------------|---------------------------|----------------|
| Professor MACKENZIE | | Professor WILSON | |
| Associate Professor ZAN | | Assistant Professor BAIRD | |
| Dr. ZIEGLER | Dr. PEASE | Dr. P. ROCKEY | Dr. C. T. ROSS |
| Dr. HYNSON | Assistant Professor ELSE | | Dr. WADE |
| Dr. SHEA | Dr. BROWNING | Dr. A. C. SMITH | |
| Dr. HOLDEN | Dr. NORDEN | Dr. E. ROCKEY | Dr. MCCLURE |
| Dr. HAMILTON | | Dr. JESSUP | |

Surgery is approached didactically in lectures, and in recitations in the principles of surgery, from text assignments throughout the Junior year. Clinical work is conducted in the nearby hospitals in the third and fourth years. Minor surgery is taught clinically and at the dispensary, and operative surgery is presented in the fourth year, during which each student is required to do actual surgical work on the cadaver. Each senior student is assigned in rotation to take part as assistant in surgical operations and as anaesthetist under proper supervision, in the clinic.

1. SURGERY RECITATION

A course in quizzes in the principles of surgery and surgical pathology from definite assignments in a textbook of surgery. 2 hours a week, both semesters, 3d year. Associate Professor ZAN, Dr. PAUL ROCKEY.

- 1a, 1st semester, 2 credit hours
- 1b, 2d semester, 2 credit hours.

2. SURGICAL CLINIC

Minor surgery is taught clinically by demonstration of technique in elementary surgery, bandaging, care of the injured, etc. 1 hour a week, 2d semester, 2d year. St. Vincent's Hospital. Dr. ZIEGLER. One-half credit hour.

3. SURGICAL CLINIC

A clinic in general surgery. 1 hour a week, 1st semester, 3d year. Dr. HAMILTON. One-half credit hour.

4. SURGICAL CLINIC

The attempt is made in this course to teach surgery in the most practical manner and during the past eight years a method of instruction has been followed which has been commended in many quarters for its thoroughness.

The classes are limited at the present time to twenty-five students. Four students, who have been previously strictly trained in methods of asepsis, enter the amphitheater with the operating surgeon; two of them are assigned to assist the operator and actually take part in the operation and learn practical lessons in hemostasis, ligation of vessels and general technique; the other two students are stationed at the head under an expert anesthetist who studies anesthesia with them and instructs them in all methods of administration. While one student is engaged in giving the anesthetic under instruction, the other is being taught how to make observations with the sphygmomanometer studying the reaction of the patient to the various operative procedures.

That part of the period which is usually consumed in preparation for operation and the administration of the anesthetic; namely, twenty to twenty-five minutes, is devoted to the study of pathology from specimens collected at previous operations under a special detail from the department of pathology.

Six hours a week, entire 4th year. St. Vincent's Hospital. Professor MACKENZIE. Six credit hours.

5. SURGICAL CLINIC

A clinic in general surgery, dealing chiefly with fractures and other lesions of bones. 2 hours a week, 1st semester, 4th year. Professor WILSON. Two credit hours.

6. SURGICAL CLINIC

A clinic in general surgery with especial attention to surgical pathology. 1 hour a week, entire 4th year. Multnomah Hospital. Assistant Professor BAIRD. One-half credit hour.

6a. SURGICAL PATHOLOGY AND DIAGNOSIS

A course dealing with the gross pathology of surgical diseases in relation to diagnosis. 2 hours a week, 2d semester, 4th year. Multnomah Hospital. Assistant Professor ELSE. Two credit hours.

7. COMMON SURGICAL DISEASES

A lecture and conference course involving a discussion of the pathology, diagnosis, and treatment of the more common surgical diseases. 2 hours a week, 2d semester, 4th year. Assistant Professor BAIRD. Two credit hours.

8. ORTHOPEDIC SURGERY

A lecture and clinical course in orthopedic surgery. 2 hours a week, 2d semester, 3d year. Dr. McCLURE. Two credit hours.

9. OPERATIVE SURGERY

A course in surgery on the cadaver presented by lecture, demonstration and individual work by each student on the cadaver. 3 hours a week, 2d semester, 4th year. Dr. PEASE. Three credit hours.

10. SURGICAL DISPENSARY

A practical course in surgery, giving the student opportunity to do individual work in minor surgery at the dispensary. 8 hours a week, both semesters. Assistant Professor WHITESIDE, Dr. SHEA, Dr. ROSS, Dr. HYNSON, Dr. ROCKEY, Dr. WADE.

11. CLINICAL CLERKSHIP SERVICE

In this service the attempt is made to bring the student into the closest possible relation to the patient. The students act as clinical clerks, taking the history, making the physical examina-

tion, and all the necessary examinations. The class will be divided into groups for the study of cases before, during and after operation. Dr. TAYLOR, Dr. JESSOP.

12. SURGICAL DIAGNOSIS

In this course the instructor attempts to give the student the symptoms and physical signs of the more interesting surgical lesions and the manner of arriving at a diagnosis. 1 hour a week, 1st semester, 3d year. Dr. HOLDEN.

13. SURGICAL DIAGNOSIS

Continuation of Course 12. Dr. NORDEN.

14. ANASTHESIA

A course in the physiologic effects and the technique of administration of anaesthetics. 1 hour a week, 1st semester, 4th year. Dr. BROWNING. 1 credit hour.

XI. OBSTETRICS

Professor STORY

Assistant Professor ELLIS

Assistant Professor McCUSKER

Dr. SCOTT

Obstetrics is taught in the third and fourth years in lecture, recitation, and practical courses. Normal and pathological cases are demonstrated in hospital clinics and the out-patient service. Practical work is done by each student on the manikin and in the conduct of labor, under proper supervision in out-patient work. The student must be in attendance on at least six cases before graduation.

1. INTRODUCTORY OBSTETRICS

A lecture and recitation course in the anatomy and physiology of pregnancy, the diagnosis and management of normal pregnancy, and the clinical phenomena of normal labor. 3 hours a week, 1st semester, 3d year. Professor STORY or Assistant Professor McCUSKER. Three credit hours.

2. ADVANCED OBSTETRICS

A lecture, conference and practical course in the conduct of labor and the diagnosis and treatment of pathologic conditions of pregnancy, labor and the puerperium. 3 hours a week, 2d semester, 3d year. Professor STORY or Assistant Professor McCUSKER. Three credit hours.

3. PRACTICAL OBSTETRICS

A conference, and practical course in the conduct of labor and management of abnormal presentations and other complications of labor. Each student is required to do practice work with the manikin. 1 hour a week, 1st semester, 4th year. Dr. ELLIS.

One credit hour.

4. OBSTETRICS

(a) Obstetrical measurements, diagnosis of foetal positions and clinical observations during pregnancy. Students will be taken in sections and hours arranged for Seniors. Professor STORY.

(b) Cases of confinement will be demonstrated and Senior students will be allowed to assist in the conduct of labor in the maternity departments of the various hospitals and in the out-patient service. Hours to be arranged. Entire 4th year. Professor STORY, Assistant Professor McCUSKER, Dr. SCOTT.

XII. GYNECOLOGY

Professor TUCKER

Dr. ZIEGELMAN

Assistant Professor WIGHT

Dr. ELLIS

Gynecology is taught by lectures, recitations, clinics and dispensary work in the third and fourth years.

1. GYNECOLOGY

Lectures and recitations in the anatomy, physiology and pathology of the female pelvic viscera, methods of gynecological examination, and the diagnosis and treatment of pelvic diseases. 2 hours a week, 2d semester, 3d years. Professor TUCKER, Assistant Professor WIGHT. Two credit hours.

2. CLINICAL GYNECOLOGY

Lectures and clinics in the clinical diagnosis and medical and surgical treatment of diseases of women. 2 hours a week, 1st semester, 4th year. Professor TUCKER. Two credit hours.

3. PRACTICAL GYNECOLOGY

Dispensary work will be assigned to Senior students. Hours to be arranged. Professor TUCKER, Dr. ZIEGELMAN.

XIII. GENITO-URINARY DISEASES

Professor MACKAY

Assistant Professor WHITESIDE

Dr. HOWARD

Diseases of the genito-urinary tract will be considered didactically and clinically in the junior and senior years. Practical work will be given at the dispensary in cystoscopy, urethral, catheterization and modern methods of treatment.

1. LECTURE AND CONFERENCE

Lecture and conference in anatomy and physiology of the genito-urinary tract and study of the diseases affecting it. 2 hours a week, 2d semester, 3d year. Professor MACKAY.

Two credit hours.

2. CONTINUATION OF COURSE

With presentation of clinical work and accurate methods of diagnosis and treatment, and clinics at Multnomah County Hospital. 2 hours a week, 1st semester, 4th year. Professor MACKAY

Two credit hours.

3. DISPENSARY WORK IN GENITO-URINARY DISEASES

Will be assigned as a part of the work in surgical dispensary. Assistant Professor Whiteside, Dr. HOWARD.

4. CLINIC

A clinic in the pathology, diagnosis and treatment of genito-urinary diseases, and the use of the cystoscope and other diag-

nostic appliances. 1 hour a week, 2d semester, 3d year; 1 hour a week, 1st semester, 4th year. Professor MACKAY and Assistant Professor WHITESIDE.

One-half credit hour.

XIV. OPHTHALMOLOGY, OTOTOLOGY, RHINOLOGY, AND LARYNGOLOGY

Professor NUNN

Dr. COGHLAN

Dr. RALPH FENTON

Dr. KIEHLE

Dr. DICKSON

Dr. AINSLIE

Dr. WRIGHT

Dr. DAVIS

Dr. FRENCH

These branches will be taught separately in the elementary work by means of lectures, demonstrations and recitations, and minor surgery, in the clinics during the Junior year. A more advanced course will be given in the Senior year, including major surgery.

1. EYE

A lecture and quiz course in the anatomy and physiology of the eye and its more prevalent diseases. 1 hour a week, 2d semester, 3d year. Dr. AINSLIE. One credit hour.

2. EAR, NOSE AND THROAT

A course of lectures and quizzes in the anatomy and physiology of the ear, nose and throat and the pathology, diagnosis and treatment of their disorders. 1 hour a week, 2d semester, 3d year. Dr. Kiehle. One credit hour.

3. DISEASES OF THE EYE

An advanced course of lectures and clinics in the pathology, diagnosis and treatment of affections of the eye, ear, nose and throat. 2 hours a week, 1st semester, 4th year. Professor NUNN and Dr. WRIGHT. Two credit hours.

4. DISEASES OF THE EAR, NOSE AND THROAT

A more advanced course in the diseases of the ear, nose and throat. 2 hours a week, 2d semester, 4th year. Dr. COGHLAN.

Two credit hours.

5. CLINIC

A clinical course in diseases of the ear, nose and throat at Multnomah Hospital. 1 hour a week, entire 4th year. Dr. RALPH FENTON. One-half credit hour.

6. DISPENSARY

A practical course in which the students have an opportunity to examine and make observations on cases. 4 hours a week, both semesters, 3d year at the Free Dispensary. Dr. DAVIS, Dr. FRENCH.

7. CLINIC

A clinic at the Portland Free Dispensary paying especial attention to diagnosis. 1 hour a week, 1st semester, 3d year. Dr. DICKSON, Dr. COGHLAN.

8. REFRACTION

A course in simple refraction open to Senior students and graduates in medicine. Hours to be arranged. Dr. WRIGHT.

SCHOLARSHIPS

One free scholarship and two half-scholarships in the Medical School are open to students in the preliminary medical courses in the University. The full scholarship carries full tuition and the half-scholarships, one-half the tuition. The tenure of each scholarship is two years.

These scholarships are awarded on the basis of high standard of work in pre-medical subjects, and preferably to those students who have completed four years at the University, with the A. B. or B. S. degree; next, to those in the Seven-Year Combined Course who have completed the first year in the Medical School; and lastly to those of exceptional merit who have finished three years at the University and who are candidates for the B. A. degree.

Applications for scholarships must be in the hands of the Committee on Scholarships at Eugene no later than April 10th, of each year. Awards will be made by May 1st.

SCHOLARSHIPS, 1916-17

WILLIAM C. FOSTER, B. A., Full Scholarship.

WILLIAM P. MURPHY, B. A., Half scholarship.

WILLIAM K. LIVINGSTON, B. A., Half Scholarship.

STUDENT ASSISTANTSHIPS

Six positions as student assistant in the laboratory branches are open to all students. These positions carry a salary of one hundred and fifty dollars per session, and scholarships and special qualification are considered in their allotment. Application for these positions must be made in writing to the Assistant Dean, and such application is subject to the approval of the instructor under whom the applicant contemplates serving.

STUDENT ASSISTANTSHIPS, 1916-17

Anatomy—ROBERT W. LANGLEY, JOHN H. FITZGIBBON.

Physiology—LINUS H. BITTNER.

Biochemistry—IRA E. GASTON.

Pathology—EDWARD J. JASPER.

Bacteriology—JESSE DALE JEWELL.

Pharmacology—RICHARD P. LANDIS.

MEDALS FOR HIGHEST SCHOLARSHIP 1916-1917

1916

Highest Scholarship in all Departments

WILLIAM CHARLES MUNLEY

1917

Highest Scholarship in all Departments

LUCILLE HART, B. A.

Highest Scholarship in Anatomy

JAMES A. LOUNDAGIN

ALUMNI ASSOCIATION

The Alumni Association of the Medical School of the University of Oregon is a strong organization promoting the interests of students and graduates and encouraging scientific and professional progress among its members; also, working with the Faculty to build up in Portland and the Northwest one of the greatest medical schools in the United States.

All graduates and present and past instructors of the medical departments of the University of Oregon and Willamette University are eligible to membership. The dues are \$1.00 per year.

The annual meeting of the Alumni Association is held at graduation time and covers three full days. It includes clinics, papers, business meeting and banquet. Many out of town physicians attend the meetings. The proceedings are published each year and copies are sent to all members.
